

BOEING 737-400 REPAIR, SUBANG, MALAYSIA

SOAR was called to Subang to perform heavy aircraft structures repair, engineering and Scribe Line AD Inspection.

The inspections revealed scribe line damage requiring significant additional engineering and repair.

For a graphic presentation of this repair please visit: www.sourceoneaircraftrepair.com.

SOAR managed and supervised multiple MRO and NDT partners and engineering firms to conduct a large scope of repair work, including repair designs and additional repair needs.
